

# MILAM & GREENE

## W H I S K E Y

DISCOVER THE FIRST BOURBON IN AMERICA  
TO SCIENTIFICALLY UNCOVER THE POWER  
OF CLIMATE IN TEXAS.

INTRODUCING “THE ANSWER” FROM MILAM & GREENE

Over 5 years,  
Milam & Greene aged the exact  
same whiskey in 2 places—  
Kentucky and Texas—  
to isolate one powerful factor:  
the weather.

The result? A world-first side-  
by-side tasting set that lets  
you taste science in your glass.

There are only 800 cases nationally  
with the next release over 5 years  
from now.

For the first time in whiskey history,  
Milam & Greene has cracked the code:  
How does climate really affect bourbon  
in Texas?

The Texas bourbon, shaped by wild heat  
and dry air, is bold and rich—packed  
with caramel, toasted oak, and spice.

The Kentucky bourbon, aged through  
four seasons, is bright and refined—  
full of floral fruit, honey, and a gentle  
warmth. Together, they tell the story of  
how nature writes itself into whiskey.

No guesses. No myths. Just data-backed  
deliciousness. “The Answer” is for  
curious sippers, whiskey lovers, and  
anyone who’s ever wondered what  
makes a great bourbon truly unique.

This is more than a bottle—it’s  
a groundbreaking experiment  
you can drink and discuss.

The two 375-bottles come in a bespoke  
wooden box.

Mash bill is 70% corn, 22% malted rye,  
and 8% malted barley.

Age: 5 Years

Cost:

SRP is \$149.99.

This will sell out. Limited edition.

Taste them side-by-side or Blend them,  
just as we do at Milam & Greene – the  
distillery with the most decorated craft  
whiskey team in America!
